

Special Interest Groups of the **Academy of Clinical Electrophysiology and Wound Management (ACEWM)**

As a valued member of **ACEWM**, you gain exclusive access to a wealth of resources designed to enhance your professional development and networking opportunities. One of the key benefits available to you is our array of Special Interest Groups (SIGs), which serve as dynamic platforms for connecting with industry leaders, expanding your network, and accessing valuable insights within specialized areas of practice.

We invite you to explore the offerings of our 4 SIGs, Biophysical Agents SIG (BPA SIG), Electrodiagnostics SIG (EDX SIG), Neuromusculoskeletal Ultrasonography (NMSKUS SIG) and Wound Management SIG (WM SIG), where you'll discover:

1. **Access to leading experts:** Connect with esteemed professionals and thought leaders in the field of wound management, gaining invaluable insights and expertise. *Join our google group from our website and our Facebook group under ACEWM's Facebook page.*
2. **Networking opportunities:** Forge meaningful connections with peers who share your passion for advancing wound management practices, fostering collaborations and partnerships. *Ask how you can get involved.*
3. **Information exchange:** Stay at the forefront of developments in wound management through access to relevant research, case studies and best practices shared within the SIG community. *View or submit a case study.*

By engaging with the SIGs, you'll not only enrich your professional journey but also contribute to the collective advancement of clinical electrophysiology and wound management practices.

Thank you for your continued dedication to excellence in the field.
